

● LARRY Autonomic Chair / Test ride memo plus1 ●

LARRY test ride ·
About 10 to 20 minutes
can now maintain a
sitting posture
autonomously

Everyone
Vocalization became
clear

Everyone
The scoliosis was
reduced and the
facial expression was
neat.

1 year and 4 months on LARRY,
79 years old, was bedridden with gastro-
intestine mother. Now she can eat a three-meal
with spoon. And have a conversation
became. She was taking LARRY all day
long. The other day, went to a concert of
mother's favorite singer.
(story of son)
